DETAILED ACTION

Claims 80-186 are pending in this application.

Restriction Requirement

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 80, 82, 84-149 and 167-186, drawn to a fluid composition comprising a C₈-C₂₂ alkyl dimethicone copolyol of formula I, classified in class 424, subclass 401.
- II. Claims 80, 84-143, 150-153, 156, 157 and 167-186, drawn to a fluid composition comprising a dimethicone copolyol of formula II, classified in class 424, subclass 401.
- III. Claims 80, 84-143, 150, 154, 156, 157 and 167-186, drawn to fluid composition comprising a dimethicone copolyol of formula III, classified in class 424, subclass 401.
- IV. Claims 80, 84-143, 150, 155-157 and 167-186, drawn to fluid composition comprising a dimethicone copolyol of formula IV, classified in class 424, subclass 401.
- V. Claims 81, 83 and 158-166, drawn to fluid composition, classified in class 424, subclass 401.

The inventions are independent or distinct, each from the other because:

Inventions I-IV and V are directed to related products. The related inventions are distinct if the (1) the inventions as claimed are either not capable of use together or can have a materially different design, mode of operation, function, or effect; (2) the inventions do not overlap in scope, i.e., are mutually exclusive; and (3) the inventions as claimed are not obvious variants. See MPEP § 806.05(j). In the instant case, the inventions as claimed inventions as claimed are not capable of use together because contain different dimethicone copolyols. The use of different dimethicone copolyols would impart different properties to the water-in-oil emulsions as claimed. Group V does not require the use of neither a C₈-C₂₂ alkyl dimethicone copolyol nor a dimethicone copolyol in the formulation. Furthermore, the inventions as claimed do not encompass overlapping subject matter and there is nothing of record to show them to be obvious variants.

Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions require a different field of search (see MPEP § 808.02), restriction for examination purposes as indicated is proper.

A telephone call was made to Thalia Warnement on June 4, 2007 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1616

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

Claims 80-186 are under restriction requirement.
